Utilize the Benefits of Cashless facility for your Health Insurance claims

Dear Valued Policyholder,

Greetings from United India Insurance Co. Ltd!

We hope this message finds you and your loved ones in good health.

In case of any unforeseen circumstances and if a claim is to be made on your Health Insurance Policy, we kindly request you to utilize the '*cashless facility*' provided by our empanelled hospitals to the fullest extent whenever you require medical treatment.

We would like to bring to your attention the advantages of utilizing the cashless facility provided through our empanelled hospitals, which are part of our Network.

Seamless and Hassle-Free Experience: When you choose cashless facility at our empanelled hospitals, you eliminate/minimize the need to pay upfront and go through the reimbursement process. This means you can focus on your health and well-being without the stress of financial transactions. With cashless, you won't have to worry about bearing the initial treatment expenses. Your health insurance policy takes care of it, giving you peace of mind during medical emergencies.

Streamlined Documentation: Cashless transactions require minimal paperwork (*as the Hospital takes care of all documentation & communication*), making the entire process more efficient and hassle-free for you.

Therefore, considering the merits for cashless facility, we encourage you to make the most of this convenient option and minimize reimbursement claims whenever possible.

If you have any questions or need assistance in finding an empanelled hospital in your locality or understanding the cashless process, please don't hesitate to reach out to your TPA (Third Party Administrator) Team mentioned in your Policy Schedule. Alternatively, you can also reach out our website to access the list of empanelled Hospitals under our network:
